

LP20-10 20dB VSAT attenuator

LP20-10

The LP20-10 is attenuator specially designed for VSAT applications. It is designed to attenuate the 950-2100MHz signals but pass the DC and 10MHz, without loss, to the BUC. The case has a Nickel plated finish.

Model	Freq Range	Insertion Loss	Insertion loss at 10MHz	DC Pass	Impedance
VBT1-2	800-2200 Mhz*	20dB	<1dB	4A	50R

Other attenuation values to order
Available with N, BNC or SMA connectors in 50ohms
Alternatively BNC 75ohms
